About this app

SAY HELLO TO EMOJI ID™

Sending and receiving digital currencies is anxiety-inducing. One wrong character, and your money is gone forever. To solve this problem, addresses on the Tari network are strings of Emoji. The Tari community calls this revolutionary address form factor Emoji ID. With Emoji ID, the first three and last three emojis are easier to identify and recall than random characters, and each Emoji ID includes a checksum to ensure the address...

This app is awesome. Really looking forward to Tari mainnet but for now there's plenty of fun to be had on Aurora and Testnet. Created wallet, sent transaction, checked out the store. Everything has worked amazing can't wait to see what's next.

What's new

In this release, we changed the way how we inform our users about the backup process. Now, pop-ups will appear on the screen when the user reaches a certain token amount.

We also enabled the cloud backup options. From now you can again back up and restore your wallet from the cloud.
